Cases by Age Group

Cases by Race/Ethnicity

Cases by Episode Date

Deaths by Age Group

Deaths by Race/Ethnicity

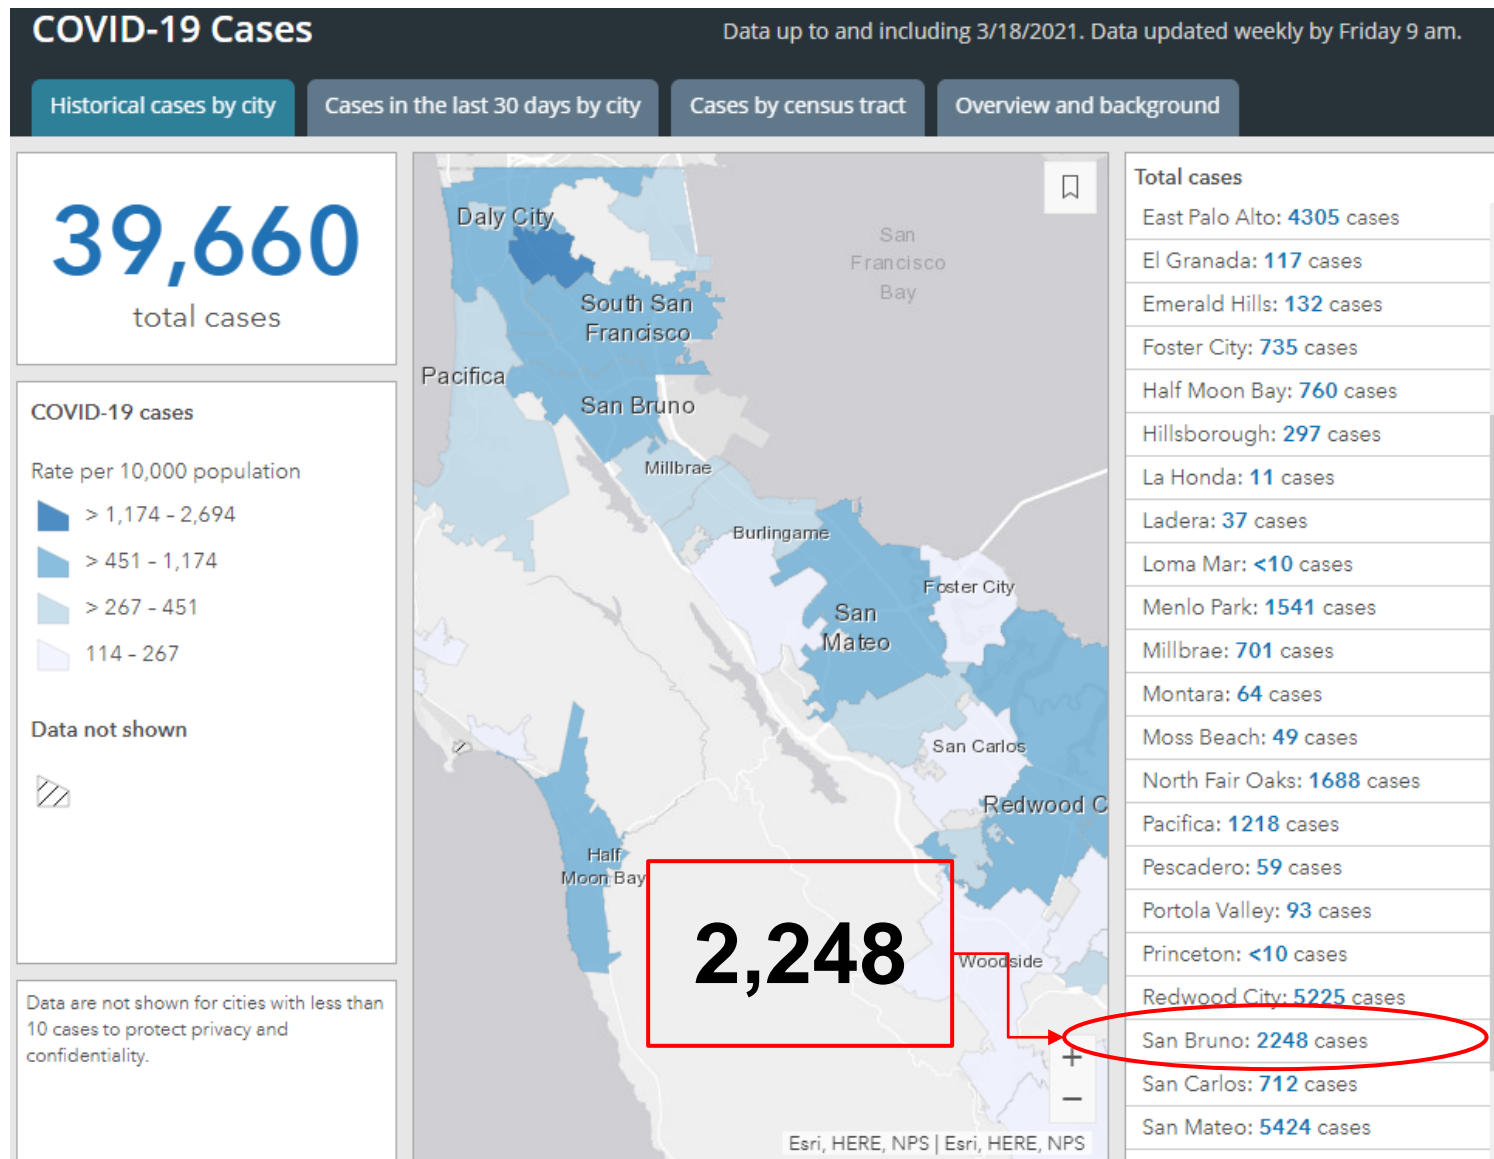

Because of limited testing capacity, the number of cases detected through testing represents only a small portion of the total number of likely cases in the County. COVID-19 data are reported as timely, accurately, and completely as we have available. Data are updated as we receive information that is more complete and will change over time as we learn more. Cases are lab-confirmed COVID-19 cases reported to San Mateo County Public Health by providers, commercial laboratories, and academic laboratories, including reporting results through the California Reportable Disease Information Exchange. A lab-confirmed case is defined as detection of SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test. Cases are counted by episode date; episode date is defined as the earliest of: case symptom onset date, sample collection date, date of laboratory result, or date of death. Deaths reported in this dashboard include only San Mateo County residents; death data last updated March 22, 2021.

from

1/1/2020

3/20/2021

Individuals Who Completed
Vaccination Series

124,230

% Completed Vaccination Series

Total Vaccine Doses Administered

355,813

Vaccinations administered as part of federal health care organizations or programs such as the Department of Veterans Affairs (VA) report to federal immunization systems, may not report into CAIR2, and may not be included in vaccination numbers on the dashboard. On February 2, 2021, CDPH reported a possible undercount in the number of vaccinations administered to county residents for a portion of records submitted to CAIR2; corrections to previously reported vaccination data are underway.

COVID 19 Vaccinations of San Mateo County Residents

Vaccinations for San Mateo County residents are reported to SMC Public Health via the California Immunization Registry (CAIR2). COVID-19 vaccine administration data are reported as timely, accurately, and completely as data become available. Previous data will change as new and updated data are received.

Vaccine Doses Administered by Date

Vaccination Series Completed by Date

Note: Numbers in the dashboard represent those who have received the second dose of a two dose vaccine (Pfizer and Moderna) and those who have received one dose of a single dose vaccine (Janssen).
